

Thank you for choosing Diddy Dribblers for your child!

COVID-19 means that our Diddy Dribblers sessions will run a little differently than before. The safety of your children and our staff is always our first priority so we have taken necessary precautions to make our sessions as safe as possible. We've answered a number of FAQs below to help ease any uncertainty you may have. Can't find the answer you're looking for? Please get in touch!

Why have you structured Diddy Dribblers and the booking process in the way you have?

We have structured Diddy Dribblers in specific ways, taking numerous things into consideration, such as the size of each venue (both indoor and outdoor), how many children and bubbles we feel can work safely within each venue and also the volume of expression of interest received for each area we run Diddy Dribblers sessions in.

Diddy Dribblers will run on Saturday mornings starting on the 3rd October 2020. There will be two sessions running on a Saturday morning. The first session will run from 09:00am-09:45am and the second session will run from 10:00am-10:45am. This gives the coaches the opportunity between the two sessions to clean and/or replace equipment to prevent any cross contamination and reduce the chance of the virus spreading.

How many people will be at each session?

Session numbers will be limited to fifteen children per session including **one** responsible adult to supervise your child at all times and two Diddy Dribblers coaches.

Will Diddy Dribblers team members be the same every week?

There will be 2 team members running the sessions, a head coach and an assistant coach. The head coach will be the same at each session every week, with a different assistant coach each week.

Will PPE be used?

Neither our team members or children will be asked or expected to wear PPE during sessions. However, we ask that any accompanying adults entering the building wear a face mask at all times, unless unable to do so due to reasons outlined in the Government guidance.

Should First Aid need to be administered then the Head Coach will wear gloves and a face mask. This is in line with government guidelines.

What cleaning procedures do you have in place?

We will have a designated head coach supervising the regular washing of hands, sterilising of equipment and cleaning of facilities throughout, during and after each session. Prior to the session starting, the facilities will be cleaned and then again at the end of both sessions.

Will children use their own equipment or share with others?

There are a wide variety of activities and games that we can play safely with little equipment. Wherever possible children will have their own equipment. Equipment will be cleaned thoroughly before and after use.

What activities will my child be doing?

There are a number of adapted games and activities we can play. We can run sessions with children using their own footballs. We may also incorporate some mindfulness and mental well-being activities, through yoga.

Children will be expected to work individually for the majority of games and activities whilst supported at all times by an accompanying adult.

How will registration work?

The designated head coach will sign your child in/out electronically using a tablet or phone. This will prevent the need for you to sign any paperwork or use any pens. Upon entering and leaving the building we ask that everyone uses the hand sanitiser provided (or bring your own if you are unwilling to use ours).

To maintain social distancing at registration we will place floor markings 1M apart and we ask that parents and carers adhere to social distancing rules at all times.

We ask that, where possible, only **one** parent/carer attends the session alongside the participant. Please stay and supervise your child at all times.

Please do not arrive more than 5 minutes prior to the start time. Please leave as soon as possible once the session has ended in order to prevent cross-contamination between groups.

What happens if my child has a temperature?

If your child develops a temperature then do not send them to Diddy Dribblers. Wherever possible we would ask you to check your child's temperature in the morning before attending the session.

What happens if a member of my family shows COVID-19 symptoms?

If someone within your family develops COVID-19 symptoms then we ask that you do not send your child to any Diddy Dribblers session and follow Government guidance.

What happens if someone at a session shows COVID-19 symptoms?

If someone shows COVID-19 symptoms during a session, we will immediately stop the session and ask everyone in the session, including our team members, to follow government guidance. This may mean getting a COVID-19 test or self-isolating for the required time before returning to Diddy Dribblers. If you get a test and it returns negative then you can return immediately, however should the test be positive then you should follow Government guidance and inform Diddy Dribblers as soon as possible.

Should you need any further information, or if you like to see our full risk assessment, please call us on 01254 366316 or email info@diddydribblers.co.uk.
